Finally, a reliable cordless mouse.

Secondary headline

The Microsoft® Cordless Wheel Mouse gives you the freedom to move.

Tag line/descriptor

Reliable Cordless Freedom

25-word description

The Cordless Wheel Mouse features advanced, two-channel radio technology for dependable, accurate tracking—even when your PC is not in view.

Features/benefits

- No mouse cord means no tangles. The cordless mouse works up to five feet away from the receiver base.
- No line of sight is necessary for the mouse to work. The unique digital technology works reliably anywhere on your desktop.
- Simply roll the wheel forward or backward to scroll without using scroll bars or arrows.
- Use the wheel to zoom in for a close-up view, or out to get the big picture.
- The sculpted shape gives you comfortable support, and the curved sides make it easy to hold with either hand.
